## **COORDINATION CHEMISTRY REVIEWS, VOL. 199 (2000)**

### **AUTHOR INDEX**

Butler, I.S., 1

Fanning, J.C., 159

Korsunsky, V.I., 55

Dilworth, J.R., 89

Gale, P.A., 181

Wheatley, N., 89

Edwards, C.M., 1

Hlatky, G.G., 235

## COORDINATION CHEMISTRY REVIEWS, VOL. 199 (2000)

### SUBJECT INDEX

**Ammonia**  
The chemical reduction of nitrate in aqueous solution 159

**Anion binding**  
Anion coordination and anion-directed assembly: highlights from 1997 and 1998 181

**Aqueous solution**  
The chemical reduction of nitrate in aqueous solution 159

**Carbon monoxide copolymers**  
Single-site catalysts for olefin polymerization: Annual review for 1997 235

**Chemical reduction**  
The chemical reduction of nitrate in aqueous solution 159

**Clusters**  
The investigation of structure of heavy metal clusters and polynuclear complexes in powder samples with the radial distribution function method 55

**Cyclopentadienyl complexes**  
Single-site catalysts for olefin polymerization: Annual review for 1997 235

**Diamond-anvil cell**  
Pressure-tuning spectroscopy of inorganic compounds: a summary of the past 15 years 1

**Electronic spectroscopy**  
Pressure-tuning spectroscopy of inorganic compounds: a summary of the past 15 years 1

**Heavy atoms**  
The investigation of structure of heavy metal clusters and polynuclear complexes in powder samples with the radial distribution function method 55

**Homogeneous catalysis**  
The preparation and coordination chemistry of phosphorus–sulfur donor ligands 89

**IR spectroscopy**  
The preparation and coordination chemistry of phosphorus–sulfur donor ligands 89

**Macrocycles**  
Anion coordination and anion-directed assembly: highlights from 1997 and 1998 181

**Metallocene catalysts**  
Single-site catalysts for olefin polymerization: Annual review for 1997 235

**Nitrate**  
The chemical reduction of nitrate in aqueous solution 159

**Nitrite**  
The chemical reduction of nitrate in aqueous solution 159

**Nitrogen**  
The chemical reduction of nitrate in aqueous solution 159

**Olefin polymerization**  
Single-site catalysts for olefin polymerization: Annual review for 1997 235

**Phase transitions**  
Pressure-tuning spectroscopy of inorganic compounds: a summary of the past 15 years 1

**P ligands**  
The preparation and coordination chemistry of phosphorus–sulfur donor ligands 89

**Polynuclear complexes**  
The investigation of structure of heavy metal clusters and polynuclear complexes in powder samples with the radial distribution function method 55

**Powder samples**

The investigation of structure of heavy metal clusters and polynuclear complexes in powder samples with the radial distribution function method 55

**Pressure-tuning**

Pressure-tuning spectroscopy of inorganic compounds: a summary of the past 15 years 1

**Radial Distribution method**

The investigation of structure of heavy metal clusters and polynuclear complexes in powder samples with the radial distribution function method 55

**Self-assembly**

Anion coordination and anion-directed assembly: highlights from 1997 and 1998 181

**Sensors**

Anion coordination and anion-directed assembly: highlights from 1997 and 1998 181

**Single-site**

Single-site catalysts for olefin polymerization: Annual review for 1997 235

**S ligands**

The preparation and coordination chemistry of phosphorus–sulfur donor ligands 89

**Structure**

The investigation of structure of heavy metal clusters and polynuclear complexes in powder samples with the radial distribution function method 55

**Supramolecular chemistry**

Anion coordination and anion-directed assembly: highlights from 1997 and 1998 181

**Synthetic methods**

The preparation and coordination chemistry of phosphorus–sulfur donor ligands 89

**Transition metals**

The preparation and coordination chemistry of phosphorus–sulfur donor ligands 89

**Vibrational spectroscopy**

Pressure-tuning spectroscopy of inorganic compounds: a summary of the past 15 years 1
